Adyar Day (17 February)

Recognizes the significance in TS history, of the establishing of its international Headquarters in Adyar, India, by its two main Founders: Madam Helena P. Blavatsky and Col. Henry Steele Olcott.

As we bring the essence of the teachings to our present day living, we pause to remember the early days of the Society and the gifts and sacrifices that were made by many to promote the ancient teaching.

2024 The Year of the Wood Dragon

Over 2000 years old and influenced by Taoism, Chinese Astrology is based on the Lunar calendar, 12 animals and a 60 year cycle.

This Zodiac is used by millions of people worldwide as a useful tool to identify personal strengths and to aid destiny.

The Year of the Wood Dragon of 2024 began on February 10 and holds much promise for positive change.

Circles are a worldwide symbol of Unity, strength and wholeness as they create a safe environment for people to share their point of view and experiences with others. The circle is also the symbol of boundary and enclosure, of completion, and returning cycles.

Part 1 of a series

Sunday March 17 at 7:30PM

For many years, we have been hearing about the transition from the Piscean Age to the Aquarian Age....

As we watch global events unfold, we also see them echoed in families and in community and institutional life, with many old structures giving way to new. As humanity navigates this profound shift in consciousness, we can learn to go with it, as we feel the subtle changing in ourselves with the increasing impact of information, technology and the pressure of transformation.

Tonight, Mike Dunn will share his vast knowledge and years of study and observation on this ever changing subject. This talk focuses on the fixed star Canopus and the Light within, along with the Archetypal symbolism of the Tarot cards.

This embodies the pure stream of sacred science, that guides humanity through the Ages.

1888-letter to the American Convention

The essence of Theosophy is the perfect harmonizing of the divine with the human in man, the adjustment of his god-like qualities and aspirations, and their sway over the terrestrial or animal passions in him. Kindness, absence of every ill feeling or selfishness, charity, goodwill to all beings, and perfect justice to others as to oneself, are its chief features. He who teaches Theosophy preaches the gospel of goodwill; and the converse of this is true also — he who preaches the gospel of goodwill, teaches Theosophy.

A good book can inspire, motivate and nourish ones mind and soul. It can help us feel more connected and at peace amidst chaos. It can guide one towards a better place physically & mentally...

Shining our Light -day and night-24/7
73 Anglesea Street Hamilton welcomes all

Through our President's Window

Dear Members and Friends,

A warm welcome, everyone, to our Hamilton Lodge after our summer recess.

I gain inspiration from Helena P. Blavatsky's address to the 1888 American Convention.

"Harmony" is being tested everywhere right now. Goodwill to all fellow beings, and forgiveness to others will surely help us all to work together in Harmony.

We need to find "The Eternal constant" which is the divine in all of us, and be guided by its energy. *Hamilton Lodge is a lighthouse for this energetic work.*

Grounded in this intelligent Light, we go about our lives knowing that *the Work and the Light* are taking good care of all.

To find the vibration of harmony within, is a big part of the divine journey in the Aquarian age. This is our purpose.

I invite us all to work together to move up through our own Karma, and in turn bring much needed Light to our beautiful Planet Earth and to our fellow beings.
