### **Invisible Helpers**

Emergencies sometimes leave us a story of inexplicable rescue from imminent death. An invisible hand seems to help a child down the ladder from a burning house, for instance.

We will share some striking examples, and show they fit into the big-picture view of Theosophy. Questions and discussion welcome.

### **What is it with the N.W.O and the Illuminati?**

The terms “New World Order” and “Illuminati” are common objects of suspicion and nod-nod wink-wink derision in the circles of conspiracy hunters. But are there deeper layers of understanding that have not yet been reached?

This talk will venture into this underground, showing that these terms had honourable beginnings but were soon subverted, as happens to many a good thing.
